Dear Mr. Wendt,

Yokohama delegation returned safely and, to my relief, I heard the Festival was a great success,.  
I would like to express my sincere gratitude for your 120% effort made for welcoming Mayor Nakada and my colleagues.

As you know, our mayor's visit to Hamburg was a bit tricky due to the schedule of the city council and other urgencies but he is now very happy to have left Yokohama's presence in our sister port.

The yokohama street ceremony and Yokohama Business Seminar appeared in 3 Japanese papers and 1 internet news.  
The Festival will remain as one of great accomplishments made between two cities and two ports.

Though I was unable to visit your beautiful city this time, I would like to be there in the not distant future, privately with my family, which means more money but less stress!

I will see you in Hamburg. Of course if you have another opportunity to come to Japan, you are always welcome.

Sincerely,

Takashi Kondo
