Dear Mr. Wendt

“OSLO - THE FJORD CITY EXPO” IN KIEL AND HAMBURG

As you know, our exhibition “Oslo – The Fjord City Expo” was shown at Asmus-Bremer-Platz in Kiel from September 14th to 22nd and at Rathausmarkt in Hamburg from October 22nd to 31st. During the exhibition periods more than 21 000 people visited the exhibition in Kiel and more than 20 000 people in Hamburg. In connection with the exhibition we arranged seminars in urban planning and other subjects in both cities. The seminars were very successful and we are very satisfied with both the content of the seminars and the number of participants.

We want to thank you for being our event-maker at both destinations. You arranged all necessary matters for carrying out these events: appointments with the cities about venues, opening ceremony and others, renting of marquee, security, cleaning, invitations, marketing, buying equipment,and many other things that were necessary for the success of these events.

We were very satisfied with your assistance. You took full responsibility for the events and proposed initiatives before we had thought about them – always with a smile and very service-minded. Thanks to you both exhibition were a great success.

I am convinced that the showing of the exhibition in Kiel and Hamburg has strengthened the good relations between Norway and Germany and in particular the close relations between the host cities and Oslo. As we hoped, we have also established new contacts between professionals in urban planning and other fields in Germany and Oslo. Our challenge is to use those contacts for professional development in the future.

Yours sincerely

Merete Agerbak-Jensen
Comissioner for Urban Development
